Peter M. Kinsley, VP
The Haskell Company
111 Riverside Avenue
Jacksonville, Florida 32202

Subject: Exit 29 Water Pollution Control Plant Expansion
Glynn County, Georgia

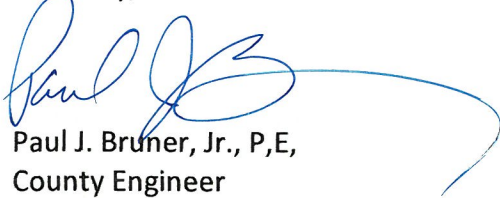

Dear Mr. Kinsley,

This letter is to thank the Haskell Company, you, and your entire team for the excellent work on the subject project. In my over 30 years of experience I have never had a project of this scope and magnitude go so well. There just were not any significant issues. The project was completed on time and under budget which is a tribute to the entire team.

It is my pleasure to provide this letter not only as a note of thanks, but for your use as a reference for future work. I cannot stress enough the importance of hiring the right construction manager for large, complex project. It is essential that the company, and individuals involved be experienced and well trained. The Haskell team certainly brought all of this to our project.

Again, thanks for a job well done.

Sincerely,

Paul J. Bruner, Jr., P,E,
County Engineer
